Accountability Pillar Results Report for 2018-2019

November 1, 2019

WHERE THE WORLD OPENS UP

The Accountability Pillar surveys are administered annually and throughout the province, during the months of January to March to:

- Students in Grades 4, 7 and 10;
- Students in Grades 4 through 9 (in small schools);
- Parents of students in Grades 4, 7 and 10; and
- Teachers.

Students and teachers complete the surveys online at school while parents receive a copy of the survey that can be completed online, or by mail. Parent surveys are returned directly to Alberta Education.

Responses are collected and tabulated into a summary chart released in May and are updated in October to supplement updated academic achievement results through the Provincial Achievement Tests (grade 6 and 9) and the Diploma Examination results (Divisional and First Nations, Métis and Inuit specific). These achievement reports are provided in a separate summary report on our school's website.

This Accountability Pillar Results Report includes our school's overall summary and new results for all survey measures.

Approximate Survey Responses:

- 7 parents in our school responded to the survey. This is up from 3 last year. Unfortunately, low survey responses may not accurately represent our parent population.
- In Parkland School Division, approximately 459 parents responded to the survey. The five-year average for parent responses is approximately 406.
- In Parkland School Division: 2,560 Students (960 in grades 4-6, 700 in 7-9 and 900 in 10-12) responded; this included 21 students who responded from our school.
- In Parkland School Division, 457 teachers responded; this included 9 teachers from our school.

These are approximate numbers as not every respondent answers every question.

Highlights and Celebrations

Parkland Village School continues to celebrate the strong work of staff, students and our overall community.

- 100% of parents and teachers agree that our staff care about the children in our care, that students are treated fairly, and are safe in our school. Staff interest and self-directed professional development in restorative practices, trauma-informed practices, and the work of our classroom teaching partner in social and emotional learning could have contributed to these results.

- 100% of parents and teachers surveyed are satisfied with the quality of education children receive in our school. 95% of our grade 4 students surveyed think our school is good or very good. Contributing factors could include but is not limited to: staff professional development focus on assessment, our commitment to our leveled literacy intervention, and the real world learning in our Microsociety.
- 95% of our grade 4 students surveyed feel like they are treated fairly at our school, and 90% of them report that teachers in our school care about them.

Parkland School Division's Ultimate Goal is Student Success and Well-Being. To this end, the Board's current Education Plan targets nine assurance elements in student growth, teaching and leading and learning supports.

There are still some areas for growth within our Accountability Pillar Survey results. Parkland Village School is committed to improvement and continuing to learn and grow with our community. For our action items related to this report, please visit our school's Education Plan section of our website.

Areas Requiring Strategic Planning

- Teachers, parents and students reported some dissatisfaction with timely access to programs and services at school to get help with school work. Our home reading program and leveled literacy programs are in place to help this but a formal review is in order to ensure the effectiveness of these programs.
- 35% of students reported that students do not follow the rules or that they don't know if students follow the rules at our school. We will endeavour to answer the questions: Are our students aware of our student code of conduct, and the other formal rules within our school?
